Contract Us to Install an Automatic Traffic Recorder

If you are an attorney, private investigator, law enforcement, expert, consultant and/or are involved in insurance claims and need accurate and dependable data relating to the following, then you need to contact us for your needs.

- ◆ Railway Grade Crossing
- ◆ Traffic intersection data and research
- ◆ Train-Vehicle Accidents
- ◆ Vehicle speeds
- ◆ Vehicle classifications
- ◆ Volume of traffic data

Type of Data Collected and Reported

We are able to use the equipment and software program to collect and process information such as:

- ◆ Basic (time-stamped) data
- ◆ Vehicle-by-vehicle data
- ◆ Binned class
- ◆ Speed of vehicles
- ◆ Gaps between vehicles
- ◆ Volume of traffic data

Color Graphs in 2D or 3D

We are almost unlimited in the types of graphs we can produce from your data. A wide selection of both 2 dimensional and 3 dimensional graphs can be customized in almost any fashion to provide a visually stunning way of presenting your data.

Create Your Own Reports

The software features allows the ability to design B&W or color reports to suit your needs. We can position data columns, totals, averages, percentiles and many other statistics in almost any order. Or, choose from one of the many standard report formats that come with the program. They can also be created in Acrobat PDF or Rich Text RTF format for easy electronic transfer by e-mail.

Price List

- ◆ Hire us for a turn key operation.
- ◆ We place the equipment and relay cables at the specific location.
- ◆ We calibrate and monitor the equipment.
- ◆ We provide the reports and data that is collected.
